

COMMERCIAL SERVICES

CCS's Commitment to Safety

We are closely monitoring the current coronavirus (COVID-19) outbreak, and following the guidance of the Centers for Disease Control and Prevention (CDC) and the World Health Organization (WHO), we already have policies and procedures in place across our business to address issues which may arise during this time.

Fumigation

CCS highly trained fumigation specialists are the leaders in the industry. Our fumigation teams are comprehensively trained in safety and current techniques for fumigating all types of containers, ships, barges and structures containing food and non-food products.

Fumigation Services:

- Stack Fumigation
- Bulk Fumigation
- Container Fumigation
- Silo Fumigation
- Space Fumigation against SPI

Our Termite Services:

- Pre-Construction Anti-Termite Services
- Post-Construction Anti-Termite Services
- Termite Inspections

We'll exceed your expectations

Continuing follow-through: You'll receive CCS pest management service for continual peace of mind and protection – and our grounds-care maintenance keeps your greenery thriving month after month.

Guaranteed guard against termites: Our Termite Home Protection Service ensures that termites stay gone.

Cutting-edge technology: Our trained technicians use the most effective and up-to-date pest control and lawn care methods, materials and equipment.

Humane approach: Whether we're removing pests or treating your lawn and garden, we employ the most humane strategies available.

**PROFESSIONAL
PEST CONTROL**

Peace of mind: Whether you need an audit, to have your building LEED-certified or certified for organic or kosher products, we can help. We keep detailed records and help you stay compliant with any regulations.

You Have Our Word: We guarantee 100 percent that your CCS Pest Control service will be done right, every time. If it isn't, please let us know and we will make it right.

ABOUT US

Our Company

We have always been about providing superior quality pest control services to our customers in the most environmentally responsible manner.

We offer a complete range of pest control services from general pest control & fumigation to termite protection and bird control services based on specialized integrated pest management techniques.

Competence of staff and employee training are corner stones of our organization and we believe that whether we are talking about residential, commercial or industrial solutions our clients should receive the very best level of care from CCS qualified personnel who actually know their subject.

We strive for continuous improvement of our professional standards, knowledge and efficiency to assure our customers' 100% satisfaction.

We keep your workplace clean & well sanitized

Clean workplace = Good standards & culture

Ensure a clean and safe workplace to your employees

Impress your client, visitors & guests

Protect and care for your business

Healthy working environment

Commercial & Industrial Pest Control

CCS specializes in pest management services for both commercial and industrial properties.

The commercial industry is such an integral part of our organization that we developed a Commercial Services Division to provide our clients with a dedicated group of experienced technicians that are trained to handle the demands and obstacles your business may provide.

We are constantly developing new ideas while using the latest products and technologies to ensure the best service for your business. We continue to implement innovative service techniques centred around Integrated Pest Management (IPM). IPM is an effective and environmentally sensitive approach to pest management that relies on a combination of method. IPM is used to manage pest damage by the most economical means, and with the least possible hazard to people, property, and the environment. IPM is most effective with the cooperation of the staff of the facility we service. Through communication and teamwork many pest issues can be resolved without the use of pesticides by inspecting for harbourage areas and entry points within the facility.

Upon inspection of your business, CCS will develop a customized pest management program designed to fit the needs of your business.

"Safe food is good for healthy human life" and our HACCP & GMP experiences & trained team focus on food safety principles during pest control in food industries.

OUR SERVICES

Some of the Industries we Service:

- Healthcare (hospitals, senior living, doctor's offices)
- Food Handling (restaurants, food processing, food storage)
- Multi-Family Housing (apartments, condominiums, patio homes)

Pest Control Audit Program

Many of our commercial and industrial customers especially food industries have periodic audits of their facilities. These may be internal audits mandated by the corporate "home office" or third party audits. Regardless of the audit CCS has the professional experience with teams of AIB, SGS & YUM and know how to set HACCP, food safety, GMP and other standards during pest control in your facility to excel through audit program.

- Facility assessment
- Storing practises of the site
- Reporting with our findings, recommendations and corrective actions for every scheduled service
- Pest Proofing
- Accessment of Pest control traps such as rodent traps and insect light traps
- Maintain IPM file at every site

Food Industry Pest Management & Sanitation Solutions

CCS is a national provider of pest management and sanitation solutions exclusively to the food industry. The knowledge and expertise we have gained comes from working directly with the food and commodity industries.

CCS has developed a market-leading reputation for providing consistent, reliable and high quality service to our clients. We maintain this reputation by focusing our efforts on sustaining the highest standards of quality, safety, honesty and integrity in all areas of our business.

Integrated Pest Management

We eradicate pest problems safely, efficiently and in a discreet manner for your home & works place.
